

TL-13 - Education Program

Benefit/Cost of reducing CO₂e:

N/A

Assessment: High Priority. Bin A. 18 out of 22 votes.

Education is a critical enabling component to the entire suite of transportation and land use policy options listed in this section. Many educational programs exist and other can be implemented to improve awareness and efficacy of transportation options in Utah.

The State of Utah should develop and adequately fund education programs focusing on transportation, including, but not limited to vehicle choice, transit options, vehicle maintenance, driving habits/speeding/idling, and proper tire inflation.
